

I'm so glad I came across the name of PCCS in the little Gold Directories.com. I've had water damage at least 15 times over the course of 23 years - so one might say I'm a pro at this. Each time I think I ~~had~~ have the problem corrected, it's a horrible feeling to come downstairs to find one more time water in the carpet.

I've dealt with several companies whoever could come first many times to try to keep the damage from compounding. This year, 2010, I thought I'd finally stayed ahead of the thaw to keep it from invading my downstairs. Not so.

On my ~~3~~ third call to get someone to come to my aid, I noticed one ad that seemed of "do it all." Pad removal, replacement, cleaning structure dry down. Within 45 minutes Jonah from PCCS was at my door. Soon afterward, Earl and Jody showed up - and my

worries were over. As a team, they moved all my furniture - (I have a daycare, so toys included!) removed padding, installed fans and a dehumidifier, told me they'd be back daily til it was finished.

That night I went to bed and actually got a good night sleep knowing my problem was taken care of. And at a ~~as~~ reasonable price. In one call I had it all thanks, PCCS!

Pete Dirks,
